All the above-mentioned wood-packaging producers are approved by the Swedish Board of Agriculture and may use the ISPM15 marking on their production of wood-packaging made from debarked wood that has been heat treated by kiln drying.

The conditions for approval are given in the Swedish Regulations (SJVFS 2004:53) on heat treatment, drying and marking of sawn wood products. Wood packaging materials etc. This approval means that the company's production of wood packaging material fulfils the requirements of treatment and marking laid down in the FAO standard ISPM 15.

Swedish regulation (SJVFS 2004:53) and further information about the Swedish wood packaging programme can be found at www.sjv.se/pps.

Individual manufacturer certification available from Volvo upon request.
